

Himalayan Overpool

Himalayan

The gated scheme at Himalayan Birch Close, Overpool is a unique addition to our portfolio of supported living schemes. It is located 1 mile from the M53 and less than a mile from the centre of Ellesmere Port. It is also 150 yards from Overpool train station, on the mainline between Chester and Liverpool. There is a parade of shops (including a Post office) within 100 yards of the scheme.

The project is a purpose built private cul-de-sac containing 18 Mews Style houses, each containing 2 bedrooms. All the houses are fitted out to a very high standard, including a fully fitted kitchen and everything you would expect to find in a new build property. Facilities include a comprehensive fire alarm and sprinkler system to all houses and communal areas, an integrated telephone concierge system and CCTV system.

The project also has a large communal bungalow as its core, containing a TV, lounge, games area, an outside decking area, staff office and sleep in room, meeting rooms and a training facility. The bungalow provides a supportive environment for tenants if they wish to socialise with other tenants, as well as ample room for review meetings and training events.

SUPPORT 2 INDEPENDENCE

There are 3 company vehicles on site for easy transport to and from appointments and shopping as well as for the leisure activities that we organise. These activities include holidays, farm visits, barbeques and company bikes for use by our more able tenants.

The project is staffed 24 hours a day, every day of the year and has a full time project manager based at the project for around 45 hours per week, assisted by a team of experienced support workers and seniors.

The ethos for the project mirrors that of the company, namely that individuals will be supported to achieve the best and most active lives within the community that they possibly can with the emphasis being on positive, realisable and achievable outcomes.

In General

We operate an on-call system to all our properties, anytime of the day and night. This can be used either to provide back-up staffing or help out if a tenant is having a problem giving peace of mind 24 hours a day. We invest considerably in staff training and development through a range of in house training as well as externally run courses and conferences.

Staff are our most important asset and training and good quality support and management is our primary means of ensuring excellence.

We place particular importance on Person Centred planning and working to the learning disability awards framework.
